

REGIONAL COMPUTER FORENSIC LABORATORY

The RCFL National Program Office Presents A Free Webinar for Law Enforcement—

***Managing Digital Evidence in the 21st Century: What Every
Peace Officer Must Know***

June 6, 2007

Background

- The FBI's Regional Computer Forensics Laboratory (RCFL) National Program Office (NPO) sponsors a sophisticated network of 14 digital evidence laboratories known as RCFLs.
- RCFLs are secure, full-service digital evidence laboratories and training centers that provide expert assistance to law enforcement agencies within their designated service area—at no cost to those agencies.
- The RCFL NPO committed to educating first responders about digital evidence—often referred to as the 21st century's "DNA."

Background

- The RCFL NPO is offering basic digital evidence recovery training course directly to first responders—via the Internet.
- This is a Webinar—a live seminar that takes place in real-time on the Internet.

What Participants Will Learn

- The Webinar instructors will teach participants what digital evidence is and how to—
 - Recognize
 - Seize
 - Document
 - Preserve
 - Transport

What Participants Will Learn...

The Webinar will also teach participants how to avoid improperly accessing a computer in the field, which can lead to—

- Possible destructive program activation
- Inadvertent encryption of evidence
- Accusations of evidence tampering

After the Webinar

For those who can't participate in the live event, these options are available to them:

- **Podcast** – Is being posted to the RCFL NPO's Web site, however, participants must register to access it.
- **Archive** – With a click of a mouse, registered visitors can view the presentation, complete with synchronized audio.

All participants will receive a certificate of completion from the RCFL National Program Office.

About the Webinar

- **Costs:** None—the RCFL Webinar is free of charge.
- **Who:** Registration is open to law enforcement personnel only.
- **Date:** Wednesday, June 6, 2007.
- **Time:**
 - 10:00am-11:30am (EST) – Live Presentation
 - 11:30am-12:00pm (EST) – Questions and Answers

 - 2:00pm-3:30pm (EST) – Live Presentation
 - 3:30pm-4:00pm (EST) - Questions and Answers

The Presenters

- **Jim Watkins** – Has over 20 years of law enforcement experience, and joined the San Diego RCFL after retiring from the San Diego Police Department and reaching the rank of Detective. Examiner Watkins has conducted hundreds of digital forensics examinations and regularly testifies in court as a computer forensics expert. He is a founding member of the San Diego RCFL and currently serves as the Operations Manager.

The Presenters

- **SSA Jason G. Weiss** - Is a Supervisory Special Agent (SSA) with the FBI and is currently assigned to the Los Angeles Field Office, where he oversees the Computer Forensics Squad. As a Computer Analysis Response Team certified Examiner, he has conducted hundreds of computer forensics examinations and testified as an expert witness in many court hearings. SSA Weiss has trained thousands of local, state and federal law enforcement officials in the proper techniques for the proper identification, seizure and storage of digital evidence and has created and taught digital seizure and computer forensic courses for several different units within the FBI.
